The screenshot shows a web application interface for preparing notifications. The top navigation bar includes 'Poison Centres', 'Dashboard', 'Notifications', 'Search', 'Messages', 'Reports', 'Help', and 'Logged in as Demo'. The breadcrumb trail is 'Home / Notifications / Prepare On-line'. A progress bar indicates 'Step 5 of 6'. The main navigation tabs are: 1 Administrative Information, 2 Contact information, 3 Product information, 4 Mixture information, 5 Mixture Composition (active), and 6 Finalize. Below the tabs are three buttons: '+ Add substance', '+ Add mixture in mixture', and '+ Add generic component', along with a 'Sort components' button. The 'Substance' section contains the following fields and controls:

- * Concentration: Input field with a warning icon and a percentage sign.
- CAS number: Input field with a warning icon and a red 'x' button.
- + Add: Button below the CAS number field.
- Index number: Input field with a warning icon.
- EC number: Input field with a warning icon and a '+ Add' button.
- * Chemical name: Input field with a warning icon and a '+ Add classification' button.

At the bottom of the interface, there are icons for 'New', 'Open', 'Save', and 'Print'.
